UNCLE SAM AND GREATER AMERICA

The Covington Extra has bailed down the Gobell ticket and flies at its mast-head the Democratic ticket headed by JOHN YOUNG BROWN.

HERBERT said, "Half the world knows not how the other half lies," but HERBERT never edited a newspaper in May's ville—else he would have found out.

BRYAN'S assertion that the silver issue must be dropped because the foreign-born voters are too ignorant to handle it has proven a death-sell to his hopes.

For a new party called the "National Commerce Party" proposes, among other things, to limit the net earnings of railroads to 10 per cent. As nine railroads out of ten never dream to reach that limit, the proposition is a comparatively safe one.

The Mercury are over \$50,000 worth of new buildings in course of erection at Carlisle, with more to follow. If the "Crime of '73" and MARK HANNA are not suppressed, there's no telling what this unhappy country will create.

Eastern promoters are at work in Chicago trying to combine American manufacturers in a Casket Trust to be capitalized at \$200,000,000. There oughtn't to be the slightest trouble in making this a go. Every man in America is in favor of squeezing the pretty girls.

Will the use of dum dum bullets be permitted in the Kentucky campaign?

Can't say what sort of bullets the voters may adopt before the fight ends; but so far one of the candidates has been content to use the regular pattern.

McLEAN, ALTHOLD and WARDEN seem about all that is left of the 15 to 17 crowd. They will feel lonesome since WILLE has left them—*Others Star.*

Nay, there are others—at least two of 'em. Haven't you heard of BROT MANS and BROT DULEY? The brick houses haven't fallen on them yet.

All Kansas City cattle records were broken Tuesday when the receipts at the Stock Yards were 15,000 head, or 265 head more than on September 30, 1898, when the previous record was established. Here's more evidence that MARK HANNA is the worst that ever happened, that the Gold Bugs have ruined the country and that the "Crime of '73" is the monumental outrage of all the ages. Let the band play, please.

Now, can longer doubt the efficacy of our own Tax Law as a revenue prop. It was originally intended that it would produce at least one-half of the ordinary revenues, which averaged before war expenditures began at \$1,000,000 a day, and no additions for war expenses were made to it except the ten days, which brings less than a million dollars a month. Yet the receipts under it since March 1st have been \$1,000,000, or an average of \$100,000 a day, and are still increasing. During the same period of the existence of the lamented Wilson Law the customs receipts were \$75,000,000, or less than three-fourths of the present law in a like term.

FATHER LAVELLE, in his speech introducing President McKNLEY at the Catholic Summer School, Champaign, Ill., Aug. 12, 1901, said: "We have seen what American victory means. It means not to oppress, not to tread on the necks of the fallen. It means to lift them up, to place them upon their feet, to help them to stand on their own power, to extend comfort, civilization, happiness and prosperity to all mankind. This war has brought under the dominion and protection of the stars and stripes millions of our Catholic people, far removed, some of them, from the American continent. We will present to them unhesitatingly the fact that all the American can citizens as loyal, as sturdy, and as true as those that are here today."

And in his speech which followed President McKNLEY said:

"We differ in our political and religious beliefs, but we are united for country. Look at the flag of the United States National creed. We follow—all of us—our flag. It symbolizes our purposes, our aspirations, it represents what we best believe in. It is a symbol of the best medicines we have ever had in the house. It saved my little daughter's life. I am anxious every mother should have a copy of it. I have given it to many. I have given it to many, and I am sure it is good for us all."

Wherever it floats it is the flag of the free and the hope of the oppressed, and whenever it is raised to any sacrifice it will be a triumph to us all."

"Rebellion may delay, but it can never defeat its blessed mission of liberty and humanity."

REPUBLICAN PLATFORM.

The Republicans of Kentucky, in Convention assembled, make the following declaration of purposes and principles:

First—We affirm that the existing Election Law of Kentucky is in esse over the objection of our Republican Governor, is viciously partisan, and that it is the duty of the Legislature to make it conform to the principles of free government, and to guarantee the right of suffrage to all the people of the state, and to guarantee the right of the people in this state against the perpetration of fraud at elections, commit crimes, and to make the election laws just, honest and accountable to the people for the conduct of elections.

Second—We make it a duty of the Legislature to make the state the representative of this revolutionary law, and the Republican party pledges its support to the same.

Third—We appeal to the Troumen of the Commonwealth to support the election laws.

Fourth—We make the same above the temporary success of party to join with us in the establishment of a new and better government.

Second—We most heartily approve the Amendment to the Constitution of the United States which has been faithful in maintaining law and order, and in protecting the property and interest and forceful in advancing wise legislation and in preventing the enactment of legislation harmful to the health and welfare of the people.

Third—We heartily commend the conduct and official work of our other state, the Commonwealth of Kentucky, has faithfully executed the laws and regulations of the nation, and has only disturbed them. The Republicans of Kentucky have a representative in the Senate, and a member of the House of Representatives who have voted to approve the conduct of Senator W. J. Deboe and the Republican members from Kentucky.

Fourth—We pledge the Republican party to support the new and better law which may be necessary to prevent trusts, pools, combinations to depress below its real value any article, or to regulate the same as may be necessary for the general economy of the country.

We reiterate the Republican party's opposition to the existing law, and its support of our own administration's improvements. Republican legislation has been a decided hindrance to the progress of harmful trusts, pools and combinations, and has been a decided hindrance to the remedy for wrong, and not embarrassment to industry, enterprise or thrif.

Fifth—We pledge the Republican party to the furthering and improvement of our Public Schools, and to the establishment of a State University by which the cost of books shall be paid for the benefit of the poor, and a stipend for their reward for their merit. But we are open to the suggestion that the law may be amended to provide for the payment of a stipend to the poor, especially of Negroes.
